

Set Free

Verse:

I created you and know you by name
No one like you, there's no one quite the same
From the start of time, I called you for great things
Even though you've fallen, my purpose for you still remains

Chorus:

You don't have to stay there
You have been set free
Your chains were broken
the moment you called out for me

Verse:

I've heard your cry, though no words were said
Let go of the guilt and lift up your head
I've brought new life, I still have a plan
No better time than now, here take my hand
